

Dear Judges,

Firstly I would like to thank you for your service and taking the time to help me and my senior project. I am grateful for all your assistance in my senior project. Thank you for taking the time to give my presentation your full attention. I truly appreciate the time and effort it takes to give my presentation a full review. I understand that you have lots of students that need your time and attention which makes me that much more grateful for I am that you have given me your individualized opinion and help.

My name is Tuka Mohiddin. I feel as though we all have a place in this world and I have found mine, in empowering others. I use my role and position as a student to help other students and to help women above me. My values and beliefs will not be a question to those around me. God gave me a voice to speak up for myself and those around me, and I will always speak for those who feel that they can not speak for themselves. This project has given me a chance to help others around me by firstly understanding abuse. To me, the first step is education. I have done that with my research essay. I took my time in my research to educate my audience on abuse and how it can be misinterpreted. My product was my favorite part of my whole senior project. I organized a drive to help domestic abuse victims. I asked students and staff to bring in anything from head scarfs and prayer rugs to personal hygiene items. In addition I created a help sheet that will be hung up in bathrooms and part of the sisters side of the masjid in case someone needs it. I wanted my sisters to not only receive financial help but spiritual, mental, psychological, etc. The fact that my product helps others not only people in my time but will help others when I leave highschool brings me so much joy. Again I would like to thank you for taking the time to make time for my project, I very much appreciate it.

Best Regards,

Tuka
